

Video Walls

Powerful and Versatile.

SOAR professional-grade video wall systems are the most effective solutions on the market, as they are software-driven. Which means they are more adaptable, usable and budget friendly.

SOAR's complete portfolio of high quality video walls includes a wide variety of sizes, resolutions and technologies, so you can make a huge visual impact and enhance customer experiences.

"I find SOAR to be very responsive and customer focused. They go that extra mile to make sure jobs are completed both properly and efficiently. I would definitely refer SOAR."

Digital Signage Solutions

We SOAR - only if you do, too.

SOAR, a leading LSI Solution, is the ultimate empowerment company. We enable organizations to reach new levels of customer engagement through meaningful, desirable, heightened consumer experiences driven and delivered by advanced digital technology maximized through strategy, creativity and connectivity. Our reach is global, but our approach is personal.

Advantages & Benefits

Customizable.

SOAR delivers custom solutions: we can use virtually any screen to fit the unique needs of every customer.

Efficient.

SOAR offers effective, efficient solutions: as a true integrator, we catalog different softwares with features tailored to the special requirements of different locations.

Analytical.

SOAR closely analyzes the environment of each customer to provide multiple alternate solutions that are scalable for different needs and budgets.

Core Markets

Automotive • Retail Petroleum & Convenience
 Banking & Finance • Quick Serve
 Healthcare • Education • Restaurant
 Retail • Transportation • Grocery Store

Create New Audiences

Seamless content integration across multiple screens.

SOAR designs and implements video wall systems:

- Customized to meet specific room and content requirements.
- Display an endless array of data and information to captivate audiences with visually engaging displays that educate, entertain and motivate.

Use LSI's experienced program implementation and 24/7 service teams to handle the logistics and provide seamless service and support to your system. Likewise, SOAR's content development team can create images and messages customized to meet your needs.

Complete Customer Experience

Unlimited Possibilities.

SOAR recognizes the unique needs of different audiences and settings, and customizes specifications to best meet business objective and environmental conditions, from high-definition for intimate viewing in conference and board rooms to big screens with bright displays for retail floors.

As a business unit of LSI Graphic Solutions, SOAR is uniquely qualified to design and manufacture various enclosures, surrounds and kiosks that suit our customers' distinct needs and environments.

Raising Expectations.
Elevating Experiences.
