LSI ABOLITE LIGHTING RLM DEEP BOWL

MORE FOCUSED LIGHT WITH SHIELDING FOR REDUCED LAMP GLARE

Lower mounting heights require deep shielding and cut-off for viewing comfort. By combining these elements, the LSI Abolite Deep Bowl (BD) provides the solutions to general ambient, task ambient or simple decorative lighting. The BD is a great choice for the designer when a complete cut-off luminaire is required, such as in restaurant table lighting.

- **Compact profile** with 3/4" threaded entry
- **Mounting** accomplished with rigid 3/4" conduit, or a variety of brackets, goosenecks and cord sets
- **Two sizes** (10" and 13" in diameter) make the BD a perfect choice for ambient and accent applications
- **Lamps available**
 - Compact Fluorescent (26, 32 and 42 watts)
 - gloss red, textured graphite, textured rust, satin verde green, satin copper and satin turquoise

See data sheet for complete specifications – www.lsi-industries.com

Fixture	Height (A)	Diameter (B)	Neck (C)	Weight (lbs./kg)
BD 200	11" (279mm)	10" (254mm)	4-3/4" (121mm)	2.5 (1.1kg)
