

PLATINUM OVERRIDE SWITCH (POV)

DIMENSIONS

PRODUCT DESCRIPTION

LSI Controls' Platinum Override Switch (POV) is one of the components of a Platinum Wireless Lighting Control System. The Platinum Override Switch provides an easy way to manually turn on the lighting loads at any time. It is mounted indoors, usually in an area that is accessible to building maintenance personnel but away from the general public. The POV includes a manual override push button, control module and radio.

The Platinum Wireless Lighting Control System is comprised of one Platinum Site Manager PC software and Radio Module (PSM), one Platinum Override Switch (POV), one Platinum Control Modules (PCM) for each lighting fixture, one or more optional Platinum Motion Sensor Overrides (PMO), one or more optional Platinum Photo Sensors (PPH), one or more optional Platinum Zone Controller (PZC) and one or more optional Platinum Circuit Controllers (PCC).

The Platinum Wireless Lighting Control System communicates using a patented 915 MHz mesh radio network employing the standard 802.15.4 protocol. Each unit is a repeater of radio packets. Typical range between wireless devices: 300 ft. (approx. 100m) outdoors with line-of-sight.

HOUSING – Die-formed steel housing contains factory prewired controller. A terminal block is provided for easy field wiring.

FINISH - Housings have a powder coat finish with "John Deere Green" color.

MOUNTING - Mounting bracket is factory installed and can be used with cable straps or mounting holes.

ELECTRICAL - 120V – 277 VAC, 50/60 Hz

OPERATING TEMPERATURE - -40°C to +70°C (-40°F to +160°F). 10-95% non-condensing, 7000' altitude or less.

WARRANTY - LSI Controls components carry a limited 5-year warranty

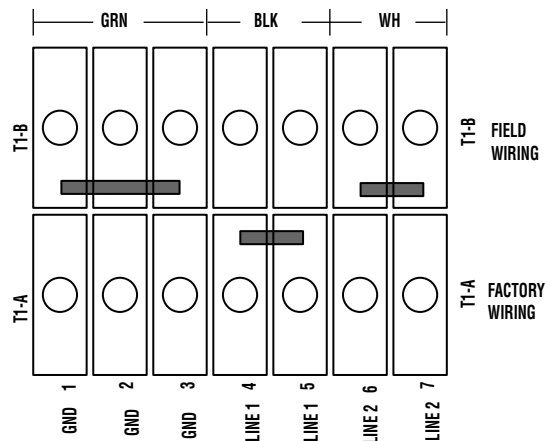

SHIPPING WEIGHT (IN CARTON) – 11 lbs. / 5 kg

CERTIFICATIONS – Listed to US and Canadian safety standards. RoHS Compliant.

This product, or selected versions of this product, meet the standards listed below. Please consult factory for your specific requirements.
