The Intersection of Performance and Technology

The SCOTTSDALE® VERTEX™ is the most feature-rich canopy fixture in the marketplace. Innovations such as combined optical distributions, multiple lumen packages, field serviceability and simple installation make this fixture the ideal canopy solution.

Retrofit Kits Available as Accessories:

(5) Best-In-Class Lumen Packages

*LED Chips are frequently updated therefore values are nominal.
** (SCFT) Symmetric Combination Forward Throw Light Distribution (SCFT)

The purpose of the FT optics is to eliminate the need for supplemental flood lighting, typically between the canopy and C-store. Aside from saving money on fixtures, it saves energy and maintenance time.
